Experience

Oct 2016 - Present

Front-End Developer

Front-End position at **MiDrive**. Working across a number of products as well as the main e-commerce site and user dashboard. All sites created with **React/Redux**, **ES6** & **webpack**, styled with **Aphrodite** and tested with **Jest/Enzyme** and **Nightwatch**.

Mar 2016 - Oct 2016

Front-End Developer

Front-End role at FinTech start-up **lwoca**. Working mainly on an internal application used to handle client's loans and finance. Built in **AngularJS**, **ES6**, **Sass** with **Gulp** and **Jasmine** for testing. Also worked on a new sign-up SPA built with React and Redux.

2014 - 2016

Front-End Developer

Front-End role at digital agency **Syzygy**. Working on sites for a number of big name clients in an agile environment; day to day maintenance of existing platforms and creating new new modules and functionality.

Technologies used: **jQuery**, **RequireJS**, **AngularJS**, **LESS**, **Git/SVN**

2014

Front-End Developer Internship

Worked on a range of products, primarily on creating a custom Wordpress theme for the **Dias_Creative** portfolio. **HTML 5**, **CSS 3**, **jQuery** and **PHP**, adopted a mobile-first approach utilising **Bootstrap** as a responsive framework. CSS compiled Sass/Compass and CodeKit.

2010 - 2013

Junior Editor/Production Assistant

Junior Editor/Production Assistant for **Large Blue/Green.TV**. Small, creative agency environment, editing short form promos from ingest to playout using **FCP & Adobe Creative suite**.
