

# JOE HOBSON

I am Joe Hobson, 28 years old and I am a Front-End Developer. I previously worked in video, but have discovered a passion for code, and am currently looking for junior roles, or further internship opportunities.

## Telephone

07787847373

## Mail

hello@joe-hobson.com

## Web

[joe-hobson.com](http://joe-hobson.com)

## Interests

Film, football and comics. I am also into fitness and regularly visit the gym.

## Education

2005-2008

## Skills

HTML(5), CSS(3), JavaScript, jQuery, PHP, WordPress, Sass, Git, Jekyll

2002-2004

BA (2:1) in English at the University of Reading

A levels gained in English Literature (B), Psychology (A) and Media Studies (B)

2002

GCSEs gained in nine subjects, including English, Mathematics, Science, French and German.

## Experience

2014

### Personal Portfolio site

Coded with **Jekyll** which allows me to create the static files I need without a database and host the site reliably and free on **GitHub Pages**. The project also provided ample opportunity to develop my jQuery skills and experiment with **VelocityJS** for complex animations that cannot be completed with just CSS.

### Front-End Developer Internship

Tasked with creating a custom Wordpress theme for the **DIAS\_Creative** portfolio; **HTML 5**, **CSS 3** **jQuery** and **PHP**, adopted a mobile-first approach utilising **Bootstrap** as a responsive framework. CSS compiled **Sass/Compass** and **CodeKit**. All work committed to **GitHub**.

Updated CSS and markup for Sheffield Doc Fest's Videotheque web app following rebrand. Re-coded media queries to ensure a better experience across hand-held devices.

Created a small web app using **PHP**, **AJAX**, **JSON** and jQuery, displaying the amount of UK power currently being provided by wind, which in turn powered a CSS animation of a wind turbine which spun faster or slower depending on the amount generated.

2010-2013

### Junior Editor / Production Assistant

Junior Editor/Production Assistant for **Large Blue/Green.TV**: Small creative agency environment; editing short form promos from ingest to playout using **FCP**, **Adobe Creative suite**, confident with various file formats and encode settings, encoding/uploading content to Green.TV homepage and syndication feeds, camera work when required (Sony Z5, Canon 5D), script editing.
